

## Can you supply products and services to the biggest tram extension programme in the UK?

Here at the Midland Metro Alliance, we value local suppliers who wish to join us on our exciting journey as we build our £1.35bn programme of tram extensions across the West Midlands – the biggest in the UK.

Looking to build long-term relationships with those who share our values - safe, sustainable, respectful, open and honest and trustworthy – if you think you fit the bill, please book to attend our event with FinditintheBlackCountry on Tuesday 17 April 2018 to discuss working together.

With a target of 80% local supply chain, ideally you will not only be local, but also innovative, market aware and agile, have a reputation for quality, be commercially focused, collaborative, have strong CSR ethics and strong management systems.

In addition, as we want to leave a legacy of skilled staff once our programme is complete, if you run Apprenticeship schemes, that is a bonus. The supply chain areas we are particularly keen to hear from include:

Access	Aggregates	Asphalt	Bridgework	Builders Merchants
CCTV Security	Concrete Sawing	Cranes	Demolition	Diamond Drilling
Drainage Contractors	Earthworks	Electrical Maintenance	Electrification and Stray Current	Encapsulation
Fastening and Fixing Systems	Fibre Optic Cabling	Fibre Reinforced Concrete	Floating Slab Mat	Ground Investigation
Ground Penetrating Radar	Grout	Haulage/Storage	Hiab	High Voltage Installations
Hydro Demolition	Insulated Work Joints	Kerbing Works	Labour	Lighting
Masonry Services	Operated Plants	Overhead Line Systems	Paving Contractors	Pedestrian Railings
Permanent Way Materials	Piling	Plant Hire	Precast Concrete	Prestressed Beams
Rail Sleepers	Rail Track	Road Marking	Road Planing	Road Sweeper Supply
Security	Signage	Site Cabins and Welfare Units	Steel Structure Fabrication	Stone & Granite Suppliers
Street Furniture	Street Lighting	Surfacing	Switches and Crossings	Timber
Tools	Vegetation Clearance	Site Clearance	Waste Management	Waterproofing Systems
Welding
